

## KANSAS CITY CROWD TO BE WELL HANDLED

Management of the Gordon-Koppel Field Making Extensive Arrangements.

## NO LONG LINE AT GATES

Seven Entrances from Five Car Routes Will Facilitate Seating.

The crowds at the Missouri-Kansas game in Kansas City Thanksgiving will be handled better than any crowd in the history of football games in Kansas City, according to the plans made by the proprietors of the Gordon-Koppel field, where the game will be played for the first time. The athletic managements of the two schools have assured the owners of the park that the crowd will be the biggest ever at a Missouri-Kansas football game, and they have made extensive preparations for the ticket holders.

The park is at Forty-seventh street and Tracy avenue. The car lines for the park are the Rockhill, Troost, Northeast, Swope Park and Prospect. The first three stop at the main entrance to the park, and the Prospect cars may make a loop in the field.

## To Have Seven Entrances.

There will be seven entrances to the park. Entrance number 1 will lead into sections 25, 26, 27, 28, 29; entrance number 2 will be for holders of tickets to sections 1, 2, 3 and 4; number 3 will lead to sections 5, 6, 7, 8; number 4 to all boxes (356, ten seats to a box); number 5 to sections 9, 10, 11, 12, 13; number 6 to sections 14, 15, 16, 17; number 7 to sections 18, 19, 20, 21, 22, 23, 24.

Fifteen hundred seats were sold Tuesday in Kansas City and of the total 18,872 available seats, about 12,000 have been sold. They are on sale at the Gordon-Koppel store, 1005 Walnut Street.

"We expect to take care of the greatest crowd in the annals of Missouri-Kansas football and we expect to take care of the crowd right," said George Lowe, manager of the field, in an interview in Kansas City Tuesday. "There will be no waiting in long lines and the delay and inconvenience that has troubled ticket holders in other days."

"We will have sufficient entrances to take care of the crowd as fast as it comes. The thing will be a system and we believe that we will handle the crowd so well that the University managers will wish to break the conference rule and play here next Thanksgiving."

"Entrances 1, 2 and 3 will be on Tracy avenue; 4 and 5 will be the main entrances; and 6 and 7 will be on Forty-seventh street."

## Alumni Are Interested.

The alumni of the two universities seem to be taking more interest than usual in this year's game. This may be because it will be the last annual game to be played in Kansas City, according to the new conference rule that no more games will be played away from conference gridirons. Sections 20, 21 and 22 on the east and 7, 8 and 9 on the west are Missouri sections; sections 2, 3, 4, 5 and 6 on the west bleachers will be occupied by Kansas students, former students and alumni.

An equal number of boxes will be allotted to the two universities. Interest in Missouri and Kansas towns is greater this year than ever before. Many towns throughout the states have sent in for tickets. Forty-nine seats in the Missouri sections were sent to football followers in Marshall, Mo., and this is just one instance of the unusual interest in this year's game.

## OPEN PLAY PRACTICED

Tigers Work Forward Pass Successfully Against the Freshmen.

In a short scrimmage against the freshman team yesterday afternoon the Varsity used the open style of play principally. Starting from kick-off, the Tigers carried the ball almost to the freshman's goal line by consecutive forward passes. Nearly all of the passes attempted were successful, and it was not until near the close of the scrimmage that the freshmen were able to solve the forward

## CLOUDY WEATHER COMING.

Weather Forecast Calls for Warmer Temperature Tonight.

"Partly cloudy tonight and tomorrow; slightly warmer tonight," is the forecast of the weather bureau. The temperature for today were:

7 a. m. .... 23	11 a. m. .... 36
8 a. m. .... 27	12 noon .... 40
9 a. m. .... 29	1 p. m. .... 42
10 a. m. .... 33	2 p. m. .... 44

## COURT BUYS BRIDGE MATERIAL.

Purchaser \$6,100 Worth to be Used Over Boone County Streets.

The Boone county court yesterday bought 627 feet of steel bridge spans and approaches to be put across creeks in the county. The bridges were ordered from the Missouri Bridge and Iron Company, of St. Louis, and will cost \$6,100.

Across Perche creek on the Boone's Lick road a main span 190 feet long and forty-five feet of approaches will be put in. At the Fenton Ford, northwest of Columbia, an eight-five foot main span and thirty feet of approaches will be placed across Rocky Fork creek. Thirty feet of main span and thirty feet of approaches will be put across a creek north of town at the Thurston bridge. Sixty feet of material was bought for each of two other bridges, the Bethlehem and Bradford bridges, south of Columbia.

A twenty-foot main span was ordered for the Hinshaw bridge near Englewood, and a sixteen-foot span for the Tate bridge northeast of Hallsville. One hundred and forty-one feet of approaches was ordered for the Old Tin Crane bridge near the Missouri river. All the bridges are to be delivered in about sixty days and will then be put in at once.

## JUDGE THURMUND'S LAST TERM.

After Next Session of Circuit Court D. H. Harris Will Preside.

N. D. Thurmond, circuit judge of Boone County, will hold his last term of court here the week beginning next Monday. Mr. Thurmond was defeated at the last election by David H. Harris, of Fulton. Mr. Thurmond is a Republican and Mr. Harris a Democrat. The new judge will begin his work January 1. Howard B. Lang, a Republican, who has been court stenographer under Judge Thurmond has been reappointed by Judge Harris.

## ART RECEPTION TOMORROW.

Pictures, Music and Voting Contest For Sophomores and Seniors.

The reception to the men in the senior and sophomore classes in the University by the women of those classes at the art exhibit in Academic hall will be from 3:30 to 5:30 o'clock tomorrow afternoon. Prof. J. S. Ankeney, Jr., will talk on the pictures in the exhibit. There will be music by an orchestra.

The voting contest to determine the best six pictures in the exhibit, which was begun last Tuesday afternoon by the junior and freshman classes, will be continued this afternoon.

## MASS MEETING FRIDAY.

Will Arrange Parade on Rollins Field At Last Practice.

The last football mass meeting of the year will be held tomorrow night in the University auditorium. Plans will be made for a parade of rooters at the last practice of the Tiger football team. The meeting had been announced by Don Magruder, chairman of mass meetings, for Saturday night, but the date has been changed.

## YALE MEN SPEND \$1000 A YEAR

Average Expense of Students Runs Into Four Figures.

NEW HAVEN, Conn.—The cost of living for a student at Yale averages slightly more than \$1,000 a year, according to figures gathered by the Yale News. Expense accounts of 114 freshmen, 117 sophomores and 119 juniors were gathered by the News. The senior year was not taken into account. It is believed the average would have been somewhat higher if the last year had been included.

The averages obtained are \$1,033.49 for freshman year, \$1,100.89 for sophomore year and \$1,133.59 for junior year. One freshman, according to the figures collected, managed to get through the year on an expenditure of \$115, while the most extravagant member of the class spent \$2,200. In junior year the lowest expenditure was \$150 and the highest \$2,700.

## No Assembly Today.

No assembly was held at the regular University assembly hour this morning.

## "CONSUMERS, PAY UP" CLINKSCALES' ORDER

New Manager of City Water and Light Plant Is After Delinquents.

## TO COURT IF NECESSARY

Business Firms Must Settle New Machinery for Power House.

Following his appointment Tuesday night as temporary manager of the city water and light plant, Emmett C. Clinkscapes yesterday took up the duties of that office. He is now familiarizing himself with the routine work, at the same time working out new plans for the conduct of the business.

"There are two propositions I am working right now," said Mr. Clinkscapes today. "I am getting right in behind some of those people who are way behind with their bills, and I am bending every energy to give the people of Columbia as good service as any town is giving."

Mr. Clinkscapes said that several business houses had been built and a number of blocks of sidewalks laid without any payment for the water that he was going after those fellows who failed to pay.

"If necessary," he continued, "I will institute court proceedings to get some of this money. I am employed only temporarily, but I expect to do my duty toward the citizens of the town. To give good service, we must have money, and that is just what we are going to get. After this, it is going to be regular 'nickel-in-the-slot' business; when they pay they will get service."

Some new machinery has been ordered for the plant, and Mr. Clinkscapes said that beyond a doubt the service will be much improved when this is installed.

## M. U. WRITES ON CRIMINOLOGY.

November Law Journal Contains Articles by Lawson and Ellwood.

The November number of the Journal of the American Institute of Criminal Law and Criminology contains articles written by C. A. Ellwood and John D. Lawson, professors in the University of Missouri.

Dr. Ellwood's article is "The Classification of Criminals." Dean Lawson's, "Criminal Procedure in England," was written jointly with Prof. Edwin R. Keedy, of Northwestern University, and is the result of investigations made by Dean Lawson on his recent visit to England. Besides the article mentioned, Dr. Ellwood has an editorial in the number.

## FUN FOR "STAY-AT-HOMES."

Y. W. C. A. is Planning for Candy Pull at Read Hall, Thanksgiving.

The Young Women's Christian Association will give an entertainment for the University men and women who do not go home for Thanksgiving. It is to be held at Read Hall and probably will be an old-fashioned candy pull. Miss Estaline Wilson is in charge of the arrangements.

## THOMPSON-HEARNE WEDDING LAST NIGHT

Marriage Was Performed by the Rev. W. W. Elwang at Presbyterian Church.

## RECEPTION GIVEN LATER

Mrs. J. C. Jones Gave Supper for the Couple After the Ceremony.

Miss Clara Thompson and George M. Hearne, were married at 6:30 o'clock last night in the First Presbyterian church of this city by the Reverend Dr. W. W. Elwang, the pastor.

Miss Thompson is a former student of the University of Missouri, a member of the Kappa Kappa Gamma sorority and a niece of Dr. and Mrs. J. C. Jones, with whom she has lived for several years. Mr. Hearne is in the lumber business at Alton, Ill.

There were more than 400 guests. The church was decorated with evergreen and white chrysanthemums. The chancel was prettily lighted by candles. Before the ceremony, Mrs. O. M. Spencer of St. Joseph sang "Believe Me If All Those Endearing Young Charms." She was accompanied at the organ by Mrs. Millard Lipscomb, of this city.

## The Wedding Procession.

The procession appeared with the sounding of the first notes of the Lohengrin wedding march, played by Mrs. Lipscomb. It was headed by the ushers; then came the matron of honor, Mrs. Joseph W. Folk, of St. Louis, and the maid of honor, Miss Caroline Jesse of this city. Following Miss Jesse came the bride, on the arm of her father, Frank A. Thompson, of St. Louis. She wore a white gown trimmed with duchesse lace and festoons of pearl trimming, with a veil and wreath of orange blossoms. The bridesmaids, instead of accompanying the bride to the altar, entered from either side of the chancel met in the center, came down the steps together and went four to each side of the altar.

The matron of honor wore a light blue costume; the maid of honor was dressed in yellow. The bridesmaids wore white satin, veiled with marquisette lace and carried large bunches of yellow chrysanthemums. The bride's aunt, Mrs. J. C. Jones wore black jetted lace over a gown of white silk.

The bridegroom and the best man, Parish Hange of Henderson, Ky., entered from the chancel door as the procession neared the altar.

## In The Wedding Party.

Besides those mentioned, the following were in the wedding party: Misses Catherine Hinton, Katherine Jones, Mary Jesse, Juliet Moss, Fiffie Willis, Ada Lefevre, all of Columbia, and Miss Laura Robertson, of Mexico, and Mrs. Frank Thompson of St. Louis, bridesmaids. The ushers were: Lloyd Jones, William Jesse, of Columbia; Frank Thompson and Guy Thompson, of St. Louis, and Lester A. Bear, of Kansas City.

The wedding was followed by a reception at the home of Dr. and Mrs. J. C. Jones. The bride and groom left this morning for Chicago. They will be at home at Poplar Bluff, Mo., when they return.

## DR. HILL TALKS IN CAPITAL.

Tells Educators in Washington About The University of Missouri.

A dispatch from Washington, D. C., tells of a speech made by Doctor A. Ross Hill, president of the University of Missouri, last Tuesday before the National Association of State Universities.

President Hill said in his talk that the University of Missouri is the only state institution that requires study in the liberal arts prior to entering upon the study of a profession. "By next year," said President Hill, "this requirement will be general in our University. Some other state universities require preparation before students are permitted to enter upon the study of medicine. But only Missouri requires thorough general preparation before students may take up any of the professions."

This statement was received with interest and approval. President Hill was appointed a member of a special committee to consider the reorganization of American education with a view to having students come to the universities prepared with at least two years of academic study.

## ORDINANCE FAILS TO PASS.

Board of Examiners for Engineers Will Not Be Established.

The proposed ordinance to establish a board of examiners for engineers of steam engines and to establish a boiler inspector, which was submitted to the city council Tuesday night, failed to carry, in stead of being adopted as was stated in yesterday's Missourian. It was the opinion of the members of the council who voted against the measure, that it was no more necessary to license persons operating engines than those running other kinds of machinery.

## THREE IN 5-MILE RUN

M. U. Men to Enter K. C. A. C. Race in Kansas City November 24.

Three men from the University of Missouri, E. T. Steele, W. L. Johnson and W. G. Shockey, will enter the annual five-mile Thanksgiving day run held by the Kansas City Athletic club in Kansas City. In a five-mile try-out last night, in which about eighteen competed, Steele finished first, Johnson second and Shockey third. The time was not announced but the coaches say the run was made in good time.

Last year E. T. Steele, this year's track captain, won the event easily, making a new record for that distance in Kansas City. Harry Tidd, who has been coaching these men, thinks that all have good chances of placing in the race this year.

The start will be from the K. C. A. C. field, Thirty-Third and Locust streets, at 10 o'clock Thanksgiving morning. The finish will be at the K. C. A. C. club house, Central avenue.

Only athletes registered in the A. A. U. and the A. L. N. A. are eligible to enter the race. Gold and silver medals will be given for first and second places, and bronze medals for third, fourth, fifth and sixth places, respectively.

## BIG JANUARY LETTUCE SUPPLY

Fourteen Hundred Plants to Be Ready for Use Farmers' Week.

Fourteen hundred lettuce plants are being grown in the big new hot bed of the Department of Horticulture. It is the intention of the department to have the lettuce ready for table use Farmers' Week next January.

The bed, situated in the state orchard, is 88 feet long, 5 1/2 feet wide, 2 1/2 feet deep and is enclosed with a 6-inch concrete wall. Protection is afforded to the plants by twenty-two 4-foot by 6-foot frames. Each frame is set with 12-inch glass panes, allowing plenty of sunlight for the plants.

Artificial heat in the bed is obtained from 16 inches of fermenting manure, spread in layers in the bottom of the bed. On top of this heating material is 7 inches of the best garden loam, in which the seeds have been sown.

## OVERCOME WHILE RUNNING.

P. J. Sergeant Was Racing Around Indoor Track in Gymnasium.

While running around the indoor track of Rothwell gymnasium yesterday afternoon, Paul J. Sergeant, a student in the School of Engineering, was overcome. He was attended by Dr. Dan F. Luby, and sent to the Parker Memorial hospital. Dr. Luby said he was suffering from a weak heart.

## \$60,000 IS WANTED FOR TWO INDUSTRIES

Commercial Club Canvassing for Electric Line and Milk Condenser Bonus.

## DISCUSSED AT LUNCHEON

Railroad Needs \$45,000 and Factory Promoters Ask for \$15,000.

The members of the Columbia Commercial club were asked to invest \$15,000 in a condensed milk factory and \$45,000 for an electric railroad at their Thursday luncheon at the Columbia cafe today. A committee was appointed to consider the condensed milk factory proposition and another to canvass the city for the electric railroad bonus.

E. T. Alexander, a representative at a condensed milk plant at Tonganoxie, Kan. and R. H. McKinney, of Kansas City, explained the proposition of the condensed milk company to the men at the luncheon. Mr. Alexander said the company would invest \$15,000, provided an equal amount of stock is sold here. It will cost \$20,000 to erect a plant, he said, and the rest would be used for machinery and other expenses.

"We have a contract with another company to furnish it most of product the next five years," he told them, "but we intend to withhold a certain percent to establish a brand of our own in the meantime. Such a brand as 'Boone County Pioneer Condensed Milk' with a picture of Daniel Boone on the label, has been suggested."

## A Columbia Proposition.

"This is to be a strictly Columbia proposition. We will be able to complete the plant in about ninety days, and we assure you the proposition will add a considerable sum to the coffers of your banks. We expect to pay out about \$20,000 a month to the farmers in a twelve mile radius and to about fifteen employees. Moreover we wish the company to have a president and treasurer from Columbia."

Mr. McKinney said the plant would have a capacity of 30,000 pounds a day. Owing to the lack of dairy herds near Columbia at the present time, however, they only expect to manufacture 8,000 or 10,000 pounds a day at the start. The promoters believe this will raise the value of farm lands at least \$10 an acre. For that reason most of the stock should be subscribed by farmers, he said.

Short statements concerning the railroad prospects for Columbia were made at the close of the luncheon by M. G. Quinn, chairman of the railroad committee of the Commercial club, and T. S. Gordon and A. J. Estes, directors of the North Missouri Central railroad.

Mr. Estes explained that \$45,000 must be raised within a short time by the business men of Columbia to make the bonds of the railroad good. This money is to be in the form of a bonus, payable upon condition that the road is completed and in operation before September 1, 1912. It is Columbia's share of the \$200,000 which must be subscribed along the right of way. Most of this amount outside of Columbia and Jefferson City has been raised, the directors said.

## Not a "Hot Air" Proposition.

Mr. Gordon read a letter from the company's attorney in St. Louis explaining the bonds and the bonus. Mr. Quinn closed the meeting by summarizing the railroad prospects. He said:

"The electric railroad proposition which is now before the people is the first which I have examined through my duties as chairman of the railroad committee, that has not been mostly 'hot air.' When this company and the Perry Traction Company came to me I advised them to combine, and the prospects for their doing so are excellent. If they do, and Columbia raises the required bonus, I believe we are practically assured of a road soon. The company expects to raise about the same amount in Jefferson City that it does in Columbia."

As the bonus must be raised immediately to make the \$1,250,000 English bonds of the company good, the committee of the Commercial club which is canvassing the city, was instructed to hurry the work as much as possible.
